Attention: Mr. Joe Lowden, President

RE: Letter of Appreciation

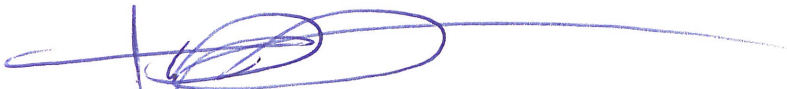

Dear Joe:

I would like to personally thank you for the assistance your firm has provided us with our design-build projects. It is essential that we have partners such as yourself that we can rely on to provide trade specific conceptual design and budgeting input. Further, your value engineering ideas have also proven to be an important resource in our collaborative effort to ensure Client satisfaction in both quality and affordability.

Client satisfaction is a primary objective of our firm in this relationship based industry. As a result, it is imperative that we engage subcontractors that offer the experience and know-how to ensure we meet this objective. Your firm has proven time and again that Pierre Sprinkler & Landscape can live up to our expectations.

Pinner Construction wishes you the best in your future business endeavors and we look forward to using your firm again in the years ahead.

Best Regards,

Justin Davis, Director of Pre-Construction
Pinner Construction Co., Inc.
